

*The Future in Prepainted Steel*

KiwiColour proudly presents **VITOR<sup>+</sup>** and **ZENEX<sup>+</sup>**

Committed to ongoing product development and innovation, KiwiColour is excited to bring to you our new VITOR+ and ZENEX+ range of prepainted steel. Utilizing new and improved paint formulations developed for our harsh New Zealand environment and increased zinc aluminium coatings of 200g/m<sup>2</sup>, KiwiColour are now able to offer extended warranty periods for severe environmental zones up to 100m away from the coast for VITOR+, and in very severe environmental zones up to 50m away from the coast for ZENEX+.

VITOR+ and ZENEX+ are both supplied with extensive warranties for your required application. Please see our full warranty guide for our full terms and conditions.

**VITOR<sup>+</sup>**

Resistance to Flaking, Peeling, and  
Excessive Fading

Will not Perforate as a result of corrosion

Environment	Roofing	Wall Cladding	Gutter/ Downpipe	Fascia	Roofing	Wall Cladding	Gutter/ Downpipe	Fascia
Mild, Moderate, Industrial, Marine (ISO Category 1~3)	18 yrs	15 yrs	10 yrs	10 yrs	30 yrs	15 yrs	10 yrs	15 yrs
Severe Marine (ISO category 4)	15 yrs	N/A	5 yrs	5 yrs	15 yrs	N/A	10 yrs	15 yrs

**ZENEX<sup>+</sup>**

Resistance to Flaking, Peeling, and  
Excessive Fading

Will not Perforate as a result of corrosion

Environment	Roofing	Wall Cladding	Gutter/ Downpipe	Fascia	Roofing	Wall Cladding	Gutter/ Downpipe	Fascia
Mild, Moderate, Industrial, Marine (ISO Category 1~3)	20 yrs	20 yrs	12 yrs	12 yrs	30 yrs	20 yrs	12 yrs	15 yrs
Severe and Very Severe Marine (ISO category 4~5)	15 yrs	15 yrs	10 yrs	10 yrs	20 yrs	20 yrs	10 yrs	15 yrs

To ensure compliance with international and local regulations regarding chemical composition of our KiwiColour pre-painted steel, the full range of VITOR+ and ZENEX+ paint systems were tested for lead content by SGS, one of the world's largest internationally recognised independent inspection, verification, testing and certification companies. These test results showed no lead content present in any of our VITOR+ or ZENEX+ paints.

KiwiColour VITOR+ and ZENEX+ are suitable for a wide range of applications:  
Roofing, Flashing and Fascia, Spouting Systems, Garage Doors, Cladding, Insulated Panels, Electrical Appliances, General Building Products.

## Independently Tested

An independent laboratory was employed to ensure KiwiColour complies with the AS/NZS 2728:2013 performance requirements. The laboratory had the following findings:

“KiwiColour Vitor+ and Zenex+ products are manufactured overseas\*\* and distributed in New Zealand by Kiwi Steel. Kiwi Steel engaged an independent laboratory to assess KiwiColour Vitor+ and Zenex+ products against the corrosion resistance performance requirements of AS/NZS 2728:2013.”

“In accordance to AS/NZS 2728:2013 Product Type 4 is suggested for use in corrosive environments up to and including ISO 9223 Category 4 ‘High’ (coastal/low salinity). Most populated areas of New Zealand fall within this category and only off-shore installations, geothermal areas, specific industrial environments, direct beach fronts and beach fronts with high wind and surf exceed this corrosivity category in New Zealand.”

“From the results available KiwiColour Vitor+ and Zenex+ products conform to the performance requirements of Product Type 4 in all aspects of salt spray performance and humidity resistance. Other product specific properties such as coating thickness, gloss and cross hatch adhesion also fall within the requirements of Product Type 4 (Gloss Category 2).”

\*\* Steel manufactured overseas and roll-formed in New Zealand.
